**MONDO™ Nail Free™** is a high-performance, hybrid polymer-based technology adhesive designed for a wide range of bonding applications. Combining the strength of polyurethanes with the flexibility of silicones, **MONDO™ Nail Free™** offers unparalleled adhesion, durability, and resistance to environmental factors. Its easy-to-use formula and non-toxic properties make it a top choice for professionals in various industries.

## FEATURES

- Superior adhesion
- Excellent durability - UV
- Water resistant, suitable even for outdoor use
- Bonds to various substrates: glass, wood, metal, plastic
- Easy of use – single component, rapid curing
- Non-Toxic and Eco Friendly – odorless, solvents-free, VOC-frees, safe for you and the environment.

## PREPARATION

Ensure that all surfaces where the sealant will be applied are clean, dry, and should be free of loose materials and contaminants.

## HOW TO USE

Cut the nozzle at 45° angle and fit to a cartridge gun.

Apply a zigzag bead of adhesive along the joint, panel, or stud.

Assemble the joint within 10 mins. and clamp with screws or fasteners.

## WHERE TO USE

### INTERIOR

- Wall & Ceiling Panel
- Floating Shelves
- Mirror

### EXTERIOR

- Vinyl Wood PVC
- Natural Stones
- Bricks
